

Prakalp Katla

Ahilyanagar, Maharashtra, India +91-9146248813 [prakalpkatla@gmail.com] LinkedIn GitHub Portfolio

Professional Summary

- Aspiring Data Scientist and Data Analyst skilled in Python, SQL, Pandas, NumPy, Scikit-learn, Power BI, Machine Learning, Forecasting, and Data Visualization, with hands-on experience in predictive analytics, time series forecasting, and business intelligence projects.

Experience

Deloitte Australia Data Analytics Virtual Internship

[link](#)

- Completed Deloitte Australia's Data Analytics Virtual Internship focused on data analysis, visualization, and business insights.
- Performed data quality assessment, data cleaning, and analysis to identify business insights.
- Created data visualizations and presented findings to support decision-making.
- Applied Excel and analytical thinking to solve real-world business problems.

Technical Skills

- Programming:** Python, SQL, MySQL
- Data Analysis:** Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA)
- Machine Learning:** Scikit-learn, Classification, Regression, Predictive Modeling, Feature Engineering, Model Evaluation
- Visualization BI:** Matplotlib, Power BI, Dashboard Development, KPI Reporting
- Tools Deployment:** Jupyter Notebook, Git

Projects

PJM Energy Demand Forecasting

[GitHub](#)

Python, Pandas, Scikit-learn, Random Forest, Time Series, MAE, RMSE

- Built an end-to-end energy demand forecasting pipeline using historical PJM electricity consumption data.
- Engineered features and trained a Random Forest regression model for demand prediction.
- Evaluated model performance using MAE and RMSE and analyzed actual vs predicted trends.

Customer Churn Prediction

[GitHub](#)

Python, Pandas, Scikit-learn, Logistic Regression, Data Preprocessing

- Built a machine learning model to predict customer churn using historical customer behavior data.
- Performed data cleaning, preprocessing, and feature engineering to improve model performance.
- Trained and compared multiple classification models including Logistic Regression.
- Evaluated model using accuracy, precision, recall, and confusion matrix for performance analysis.

Zepto Sales Analysis using SQL

[GitHub](#)

SQL, MySQL, Data Analysis, Business Intelligence

- Performed sales and inventory analysis using advanced SQL queries on e-commerce datasets.
- Analyzed pricing, discount patterns, stock availability, and revenue trends.
- Generated actionable insights on top-performing products and category performance.

E-commerce Sales Dashboard

[GitHub](#)

Power BI, Data Visualization, KPI Dashboard, Business Analytics

- Designed an interactive Power BI dashboard using 120K+ sales records.
- Created KPI reports, slicers, and drill-down visualizations for business decision-making.
- Analyzed revenue, profit margins, and category-wise sales performance.

Education

Savitribai Phule Pune University (SPPU)

jun 2023 – 2027

Bachelor of Engineering in Artificial Intelligence Data Science

Maharashtra, India

Certifications Achievements

- HarvardX CS50P – Introduction to Programming with Python.
- Winner – Smart India Hackathon: Developed SMARTKRISHI IoT solution for precision agriculture.
